B. Approval of Contracts.
   Conservation Reserve Enhancement Program (CREP) Contracts –
   The Conservation Reserve Enhancement Program (CREP) is a joint federal and state program to enhance fish habitat and protect water quality. The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) is the administrative lead. A District resource specialist (Wayne Chaudiere or Emily Hirsch) works with a landowner to develop a conservation plan that includes practices meeting the landowner’s needs. It is reviewed for technical sufficiency by the Natural Resources Conservation Service representative (Alex Hall) and George Boggs. The landowner signs the plan and it is passed on to FSA. The FSA County Oversight Committee (COC) approves all CREP plans. The current District policy is that once FSA approves the Federal Contract and CREP plan, then the CREP maintenance contract is brought to the Board for its approval. Absent unusual circumstances, the Board approves the standard-language maintenance agreement prescribed by the State Conservation Commission.

   There were nine CREP maintenance contracts submitted for Board approval.

   Ed Stone moved to ratify the CREP maintenance contracts for:
   1. Charles Held (10-04-CS:11-17)
   3. Jane & Kent Rogers (10-04-CS:11-20)
   4. Paul & Debbie Chudek (01-04-CS:11-09)

   9. Denise Thrasher (01-04-CS:11-23)

   Larry Davis seconded the motion. The motion passed.

   Joe Heller asked Wayne Chaudiere about the sign-up for CREP projects. Wayne explained that a landowner must own the property for one year before they would be eligible for the CREP program. However they encourage landowners to sign-up as soon as possible, since the CREP planning process takes a while and can be up to a year.

   Clallam Conservation District Inter-Local Agreement –
   Clallam Conservation District is interested in renewing our Inter-Local Agreement. They would like to use Andrew Phay’s services to reconstruct their website. Inter-local agreements allow for sharing District staff with reimbursement to the lending Conservation District for its employee’s time.

There was some discussion as to everyone could coordinate and contribute to reverse the trend of increasing fecal coliform. The dated MOA between EPA, Lummi and State Departments of Health and Ecology was to be updated. Tom inquired as to whether or not the County and Conservation District would join in a new agreement.
