Internship Overview
Intern will work with WCD Education and Outreach Department on increasing ecological literacy, program enrollment and public awareness of the Whatcom Conservation District services.

- Create and publish press releases
- Develop marketing materials on District programs
- Assist in public awareness campaign
- Develop website content and images
- Support on-going outreach and educational activities

District Background
Since 1946, Whatcom Conservation District has worked with landowners and farmers to manage natural resources in Whatcom County. With the mission to serve present and future generations of Whatcom County through a natural resource conservation program of leadership, partnership, and technical, educational and financial assistance to foster a healthy, sustainable relationship between people and the environment.
The District has a wealth of information concerning water quality issues, management of small and large farming operations, and implementation of best management practices (BMPs). The District publishes newsletters, hosts educational workshops and tours, and offers opportunities for volunteers to get involved.
See website for more details: www.whatcomcd.org/
